

CLAIMS

WHAT IS CLAIMED IS:

1. A mobile teaching aid with audiovisual amusement device, comprising:

5 a computer main unit, providing a casing;
 a projector, being mounted in the casing; and
 a handwriting input device, being disposed
outside the casing.

10 2. The mobile teaching aid with audiovisual
amusement device according to claim 1, wherein the
computer main unit is associated with a digital camera.

15 3. The mobile teaching aid with audiovisual
amusement device according to claim 1, wherein a cable
TV socket is attached to the casing to connect with the
computer main unit.

4. The mobile teaching aid with audiovisual
amusement device according to claim 1, wherein a
wireless net communication device is connected to the
computer main unit.

20 5. The mobile teaching aid with audiovisual
amusement device according to claim 1, wherein the
computer main unit and the handwriting input device are
provided with a transmission interface respectively.

25 6. The mobile teaching aid with audiovisual
amusement device according to claim 1, wherein the
casing at a top thereof is attached with a handle.

30 7. The mobile teaching aid with audiovisual
amusement device according to claim 2, wherein the
computer main unit and the digital camera have a
wireless transmission interface respectively.

8. The mobile teaching aid with audiovisual amusement device according to claim 2, wherein the digital camera is provided with a light.

5 9. The mobile teaching aid with audiovisual amusement device according to claim 2, wherein the digital camera has a microscope lens.

10 10. The mobile teaching aid with audiovisual amusement device according to claim 2, wherein a keyboard and a mouse are connected to the computer main unit.

11. The mobile teaching aid with audiovisual amusement device according to claim 2, wherein a wireless net communication device is connected to the computer main unit.

15 12. The mobile teaching aid with audiovisual amusement device according to claim 4, wherein the wireless net communication device can be connected to a wireless communication system such as GSM, GPRS, 3G, CDMA or PHS.

20 13. The mobile teaching aid with audiovisual amusement device according to claim 11, wherein a cable TV socket is attached to the casing to connect with the computer main unit.
